SOFTWARE ENGINEER

PROFILE SUMMARY

Hardworking ,quick learner

Strong experience in developing web Application in ASP.Net core using C# language.

Strong understanding of python and C# programming language.

Strong understanding of DBMS like MySQL, sql server.

Good at debugging code.

EDUCATION

Gogte Institute Of Technology

Computer Science and
Engineering

2018 - 2022

9.6 CGPA

Jyoti PU college

2016 - 2018

94%

EXPERTISE

C#

Python

ASP.NET Core (MVC, Web API)

DBMS

HTML

CSS

EXPERIENCE

Persistent Systems Limited -Goa July 2022 - Present

Software Engineer

Trained on C# Fundamental to Advance concepts.

Gone through multiple technologies training like .Net, ASP.NET

Completed Selfy shot courses

- C#
- Git
- .Net framework.
- SQL

CERTIFICATION

Microsoft certified azure fundamentals(AZ-900)

Protecting business innovation via patent (coursera)

PROJECTS

Trainers Calender

It is web based application build using asp.net core web API as a backend and asp.net core MVC as a frontend. and the language is c#. This application is mainly build to manage calendar of trainer to avoid overlapping of their schedule. Trainer can view their schedule where as a admin can view and schedule a meet.

Wellness score

It is web based application build using asp.net core web API as a backend and asp.net core MVC as a frontend. and the language is c#.

wellness score is the score given to a customer by insurance company. This score define the health score of their customer which help insurance company to plan their customer policy premium.
